Personal Development and Health Unit

Dear Parents,

As a part of the Personal Development and Health studies in Term Three, the students in Stage Three are looking at personal empowerment through understanding themselves and their peers.

The students will be learning about growing and changing, including physical development during puberty for girls and boys. This is an essential and mandatory part of the curriculum and will be addressed with sensitivity.

If you would like to discuss anything related to the topic, please contact your child's teacher.

Regards,

Mrs Julia McLeod & Mrs Brad Winsor
Stage 3 Teachers

Mrs Janet Cartwright
Principal
