

Sacred Heart Central School

Faith & Knowledge

20 February 2018

Dear Parents,

Primary homework started in Week 3 and will run through to Week 8 in Term 4. The students from ES1 to Year 2 have a Maths Mentals book to complete each week. Students in Years 3 to 6 will be provided with a variety of Mathematical investigations, real life problem solving tasks and inquiry based activities.

The homework tasks from Years 3 to 6 will provide students with the opportunity to apply their mathematical skills in the home environment through hands-on learning. Stage 3 will be posting the tasks on their google classroom page under 'homework' and Stage 2 will attach the information to the communication diary.

The home learning experiences will be sent out each fortnight to align with the curriculum content taught in the classroom. If you would like your child to continue with a Maths Mentals Book, teachers can make recommendations on different texts that would suit your child's level. This is at the discretion and responsibility of the parents to implement and monitor the learning sequence.

All students should be reading for a minimum of 20 minutes each night. Students are borrowing weekly from the school library and are encouraged to also bring these books home.

Please do not hesitate to make contact if you have any questions.

Regards,

Mr Brad Winsor
Primary Coordinator
