

Sacred Heart Central School

Faith & Knowledge

20 August 2019

Dear Parents/Guardians,

Sacred Heart is once again offering the opportunity for students to undertake the training required to gain a 'White Card'. This certificate is a legal requirement to work on a building site in Australia. The White Card is valid for use on all construction sites in Australia. Occupations that require White Cards include builders, electricians, landscape gardeners, engineers, environmental scientists and plumbers.

The requirement for a White Card also includes students undertaking relevant work experience. The students cannot participate in an activity requiring them to be on a building site without this card.

The course is offered for Year 9 students on Thursday September 12 and on Friday 13 for Year 10 students. An accredited trainer will conduct the course at the school. The cost of the day is \$100 payable to the Front Office to secure a place in the course.

This is the only White Card course planned for this year.

Students wishing to undertake this training will require a Unique Student Identification number which is obtained online. The web address for this is <https://www.usi.gov.au/students/create-your-usi>. This can be done at home and is free of charge and must be done before they present for the course.

If you have any further enquires please contact the school.
